PROFESSIONAL SUMMARY

HNDIT undergraduate seeking an internship as a UI/UX Designer, Mobile App Developer, or Full Stack Developer. Experienced across the product lifecycle, from user research and Figma prototyping to building responsive front-ends, back-end APIs, and databases using React, Flutter, PHP, C#, Java, and Supabase/SQL. Known for strong usability sense, problem-solving, teamwork, and time management, built through academic and independent projects.

TECHNICAL SKILLS

- **UI/UX Design:** Figma, Adobe XD, Wireframing, Prototyping, UX Research, Graphic Design
- **Full Stack Development:** React, PHP, JavaScript, HTML, API Integration, Supabase, Database Design, SQL
- **Mobile App Development:** Flutter, Dart, React, Supabase
- **Programming Languages:** C#, Dart, Python, Java, SQL
- **Soft Skills:** Problem Solving, Teamwork, Time Management

PROJECTS

Route — Mobile App / SaaS — Bus Tracking System

- Designed and developed a real-time ticket booking and live bus location tracking mobile app.
- Integrated the Google Maps API to display live bus positioning and route data.
- Built a cross-platform front-end with Flutter and React, backed by a Supabase database and APIs.
- Independently designed the mobile UI in Figma and handled the full front-end and back-end development.

Tech Stack: Flutter, React, Supabase | *Live:* route-web.vercel.app/login

Dreamscape Designs — UI/UX & Web Development — House Design Agency Website

- Designed and developed a corporate website for a house design agency to showcase projects and services.
- Created the UI/UX in Figma and built a responsive, client-facing site to generate design inquiries.

Tech Stack: Figma, Web Development, UI/UX Design | *Live:* dreamscape-gray.vercel.app/

Lily — UI/UX Case Study — Food Ordering App

- Led end-to-end UX research and created high-fidelity prototypes for a modern food delivery ecosystem.
- Designed for accessibility and crafted micro-interactions to improve overall usability.

Tech Stack: Figma, UX Research, Prototyping

Nuvia — Full Stack Web Application — Learning Management System (LMS)

- Designed and built a full stack Learning Management System with integrated API services for course tracking.
- Implemented secure authentication flows and a database-driven back-end for course management.
- Independently handled both the UI design and full stack development of the platform.

Tech Stack: HTML, JavaScript, PHP, API Integration, Database Design

Student Management Portal — Full Stack Web Application — ATI Kurunegala

- Designed the UI in Figma and developed a comprehensive full stack web portal for ATI Kurunegala.
- Built data management features, back-end logic, and role-based user access handling.

Tech Stack: Figma, Web Development, Database Design

EDUCATION

Higher National Diploma in Information Technology (HNDIT)

Ongoing — ATI Kurunegala

Cisco Certified Network Associate (CCNA)

Ongoing, Expected 2026 — University of Moratuwa

Certificate in Software Engineering

2023 — NIBM

Secondary Education

Sri Sumangala National College
